

Overtime Solution

The challenge: The inefficient tracking and management of staff overtime

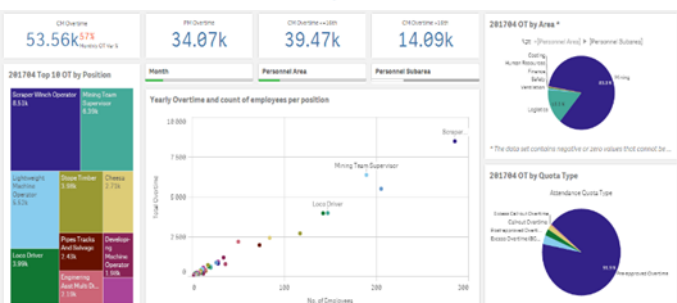

A common challenge facing the Mining and Manufacturing industry is the inefficient tracking and management of staff overtime. If overtime is not tracked carefully a company may experience financial, legal or safety implications.

Decision Inc. has created an overtime analytics solution which enables companies to better understand and manage their overtime and expenditure. All users from CEOs to Shift Managers are provided full clarity of decisions taken at a shaft or plant.

Key Benefits

-  **Save money:** Reduce unnecessary overtime expenditure
-  **Stay safe:** Improve safety and efficiency for all employees
-  **Improve accuracy:** Track and approve overtime through automated workflows
-  **Shift optimization:** Improve shift management
-  **Reporting:** Full visibility of all activities as a result of dashboard capabilities
-  **Reduce risk:** Reduce the risk of legal and financial liability
